RE: Security in La Mercy

Dear Sir/Madam

We write this letter to you confirming that we would like to work closely with role players within your area to fight crime. We have noticed a spike in crime recently and the following have been implemented from our side. Special Response Unit (Purcell Chetty – 071 883 4429) will be deployed in the area for any special operations and drive visibility. Community Operations Manager (Keven Moodley - 072 639 4189), will be in the area as random as possible to ensure that the service delivery to customers and residence are efficient.

Our local CCR (Community Control Room) 079 504 2671 number can be share to all within the area for any assistance, if they are not in a Crime group then I will appreciate if they can be added. It will be a benefit to the area as they will monitor all Watts App Groups and dispatch armed response vehicles accordingly.

Our monitoring center number 086 12 12 100 who calls you for activations can also be called for any urgent assistance.

We also hope that with our continued support from the la Mercy residents we can come to an agreement to install an LPR and overview camera at a strategic point within the area, this will be driven through our marketing and sales team on a monthly basis.

Kind Regards

Keven Moodley
